If your **home or business** has been damaged or destroyed by a federally declared disaster, you may be eligible for an SBA disaster assistance loan. These long-term, low-interest rate loans are available to businesses of all sizes, private nonprofit organizations, homeowners, and renters to repair or replace uninsured/underinsured disaster damaged property.

### Additional Facts About Applying
Loans may be used for insurance deductibles and required building code upgrades not covered by insurance or for relocation. It is not necessary to submit the description of upgrades and cost estimates with the application. We may refer you to FEMA’s Other Needs Assistance program if you are denied an SBA disaster assistance loan.

### Rebuilding Stronger is Within Reach
Consider making mitigation building improvements to better protect your home, business, or to save lives during future disasters. You can increase disaster assistance loans up to 20 percent of the verified physical damage amount to make improvements. Generally, you have two years after loan approval to request an increase for higher building costs, code-related upgrades or other mitigation measures. The SBA must approve the mitigation measures before loan increases.

For more information or to find a local disaster center, contact our Customer Service Center at (800) 659-2955 or dial (TTY) 7-1-1.

1: Apply

Begin by first registering with FEMA at disasterassistance.gov or by calling (800) 621-FEMA (3362). Then apply at disasterloanassistance.sba.gov, in person at any local disaster center, or by calling our Customer Service Center at (800) 659-2955 to request an application by mail. If you are deaf, hard of hearing, or have a speech disability, please dial 7-1-1 to access telecommunications relay services.

There is no need to wait for insurance claims to settle or to receive FEMA grants or contractor estimates before applying. You are under no obligation to accept the loan if approved.

2: Application Processed

Application packages and required documents (including credit and income information) will be reviewed for completeness. Eligible applications are sent to SBA’s loss verification team and property inspections may be necessary to decide the total physical damage.

A loan officer takes over your case to work with you to receive any additional information, review insurance or other recoveries, and recommend a loan amount.

We strive to make loan determinations within 2–3 weeks after receiving complete application packages.

3: Loan Closure & Disbursement

Loan closing documents are prepared for your signature. After receipt of the signed documents, an initial disbursement, up to the following amounts, will be made within 5 business days: up to $25,000 for physical damage; up to $25,000 for economic injury (working capital), which can be in addition to the physical damage disbursement for eligible businesses.

A case manager will work with you to answer questions and help you meet all loan conditions. The case manager schedules the disbursement of any remaining loan amount.

Loan may be increased up to 20% after closing due to changing circumstances, such as unexpected repair costs or if you receive additional insurance proceeds for the same purposes.

Compare the various disaster assistance loans in the following chart to select the one that fits your situation.

<table>
<thead>
<tr>
<th>Physical Damage Disaster Loans</th>
<th>BUSINESSES &amp; NONPROFITS</th>
<th>HOMEOWNERS &amp; RENTERS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Repair or replace damaged or destroyed real estate, machinery and equipment, inventory, and other business assets. Loans up to $2 million.</td>
<td>Homeowners may use loan proceeds to repair or replace a primary residence to its pre-disaster condition. Loans up to $200,000.</td>
<td></td>
